15. Pass your needle through to the opposite end and repeat the basic technique used in step 11 through 14 to close up the temari ball.
If you are including a bell please insert it before you close up the temari ball.

16. Pass your needle through so it exits a crystal. String enough seed beads to form a loop and thread through same crystal but from opposite end. Pass through two more times to reinforce and tie half-hitched knots in at least 3 locations to secure. Do the same with the other thread end.

You can hang this from a cell phone tag, put it on a keychain or incorporate it in a piece of jewelry.

HALF-HITCHED KNOT

Needle under thread. Pull thread to form a small thread loop and pass needle through loop. Pull knot over thread in weave, making sure you pinch your stitch so that the pulling of the knot doesn't distort your stitches.

Needle through several beads and repeat at least two more times.
